### CHINESE GRUDGING ATTITUDE TO THE SUCCESS OF THE THREE INDOCHINESE SUMMIT CONFERENCE

---

The Peking authorities have been reacting so grudgingly to the success of the recent Summit Conference of Laos, Kampuchea and Vietnam and that they were thought to have not read the Vientiane Summit Document in Chinese. Through such propaganda organs as the People's Daily, Xinhua News Agency and Radio Peking they have tried to distort the fine results of the Vientiane Summit, the solidarity closely binding the three Indochinese countries, and the goodwill of the Socialist Republic of Vietnam and the People's Republic of Kampuchea regarding the presence of Vietnamese volunteer troops in Kampuchea. They have also used their genocidal henchmen and other reactionary from the ASEAN countries to chime in with them.

Failing to find any firm justification, the Peking authorities could only say that the Statement on the Presence of Vietnamese Volunteer Troops in Kampuchea adopted at the Summit is deception. They came to a conclusion that Vietnam set pre-conditions for its troop withdrawal. What is the truth?

One portion of the statement reads as follows : "all volunteers from the Vietnamese army would be withdrawn from Kampuchea after the threat by reactionaries among the Beijing ruling circles and other reactionary forces as well as the use of Thai territory against the People's Republic of Kampuchea and all support for the Pol Pot clique and other Khmer reactionaries have ceased completely and peace and security of Kampuchea, -particularly along the Kampuchean-Thai border are assured". Apparently, these two matters are related like cause and effect. Logic is the right point here.

However, the Peking authorities continue to demand Vietnamese troop withdrawal from Kampuchea before normalizing relations with Vietnam, even with other countries. Only such is an arrogant pre-condition.

Besides these allegations the Peking authorities also claim that the withdrawal of Vietnamese volunteer troops from Kampuchea last year was but a trick. No need to argue with them about this because the withdrawal was witnessed from beginning to end by foreign newsmen whose films have been screened on the television networks in many West European countries. Probably, among the T.V. Viewers are Chinese authorities.

It was affirmed at the Vientiane Summit of the three Indochinese countries that the long-term design of the Peking authorities is to sabotage the close solidarity between those countries, to divide and weaken these countries in order to achieve expansion and hegemony the Peking authorities distort the goodwill of Vietnam and Kampuchea because the presence of Vietnamese volunteer troops in Kampuchea has become a vivid symbol pointing to the threat of Peking expansion and hegemony to Kampuchea as well as the other Indochinese countries.

One week has passed since the closing of the Vientiane Summit, only the Peking authorities and some of the reactionary forces in the ASEAN countries have appeared so disgruntled at the fine results of the Summit. People of good sense all over the world have remarked that the Summit documents demonstrate the just stand and goodwill of the three Indochinese countries. Delegates from 40 countries and international organizations to the International Forum for Peace in Asia and Southeast Asia held in Phnom Penh recently pointed out that the documents adopted at the Vientiane Summit prove the three Indochinese countries have spared no efforts in expressing their goodwill towards easing the tension and promoting the trend of dialogue between the Indochinese and ASEAN countries. These documents, they said, are of great value to the regional situation.

The grudging attitude of the Peking authorities and other reactionary forces will only increase their isolation./.
