

RESOLUTION

TAKEN BY THE CENTRAL COMMITTEE OF THE PARTY OF LABOR OF ALBANIA AND THE COUNCIL OF MINISTERS OF THE PEOPLE'S REPUBLIC OF ALBANIA ON PROCLAIMING THE 1969 YEAR AS A JUBILAR YEAR OF THE TWENTY-FIFTH ANNIVERSARY OF THE LIBERATION OF THE FATHERLAND AND OF THE TRIUMPH OF THE PEOPLE'S REVOLUTION

On November 29th the Albanian people celebrate the 25-th anniversary of the liberation of their country and of the triumph of the people's revolution, the most outstanding event in their glorious history which opened the road to the transformation of their country into a free and advanced socialist state, into an invincible bulwark of socialism in Europe.

This was achieved by the Albanian people under the farsighted Marxist-Leninist leadership of the Communist Party (today the Party of Labor) of Albania headed by Comrade Enver Hoxha and thanks to the legendary National-liberation War they have waged against the nazi-fascist invaders and local reaction, as well as thanks to the selfless and talented work which they have done and are doing in building socialism by relying on their own forces, under the conditions of capitalist and revisionist encirclement.

The Central Committee of the Party of Labor and the Council of Ministers of the People's Republic of Albania, in order to celebrate this great jubilee with magnificance,

Resolved:

1. — To proclaim 1969 as the jubilar year of the 25th anniversary of the liberation of the Fatherland and of the triumph of the people's revolution.

2. — To have the celebration of the great jubilee of the 25th anniversary of the liberation of the Fatherland and of the triumph of the people's revolution help portray the glorious past of the National-liberation War and the great victories scored by the People's Republic of Albania, which, during this quarter of a century, has radically changed and has been converted into a strong and prosperous socialist country with developed industry, advanced collective agriculture, with higher socialist education and culture, with a people's army equipped with up-to-date technique and with a glorious people who, moulded with high political, class and revolutionary consciousness, are promoting the socialist revolution through to its final victory.

3. — To turn the celebration of this noted jubilee into a great political action, which should serve us to raise to a higher level the revolutionary impetus of the people's masses which has sprung up throughout our country in order to translate into life the historic decisions of the Fifth Congress of the Party of Labor of Albania and the teachings of Comrade Enver Hoxha for the further revolutionization of the entire life of the country.

To carry out and further promote the major initiatives and actions which have sprung up among the laboring masses in the urban and rural areas for the all-out perfecting of socialist relations in production, for the increase and improvement of quality in production, to show special concern to the deepening of the technical-scientific revolution and scientific experimentation, so that the fourth five-year plan may be fulfilled before schedule and the well-being and standard of living of the Albanian people may continually raise.

This campaign should be made full use of for the all-out strengthening of the dictatorship of the proletariat, for extending working class supervision to all domains of life, for fighting against bureaucratic manifestations, for strengthening the revolutionary alliance and the great revolutionary solidarity of the working class with laboring peasantry and the people's intelligentsia, for strengthening proletarian discipline in all spheres of work, for heightening vigilance, preparedness and the defense potential of our socialist homeland.

An all-out ideological, political and cultural work should be done during this jubilar year for the class and revolutionary education of the masses, especially of the younger generation, so that the jubilee of the 25th anniversary of the

liberation of the Fatherland and of the triumph of the people's revolution should spark off another greater impetus to the further deepening of ideological and cultural revolution; to uproot everything inherited from the old feudal-bourgeois, revisionist, petty-bourgeois, religious, patriarchal, conservatory and other ideologies. In this respect an important place should be reserved to the study of the History of the Party of Labor of Albania and of the works of Comrade Enver Hoxha. The mastering of these works and other documents of the Party should serve as a powerful means for imbuing our new man with proletarian Marxist-Leninist ideology, with the high spirit of proletarian internationalism and as a source of inspiration to solve successfully the tasks the complete construction of socialist and communist society lays before us.

To deepen the struggle for the all-out revolutionization of education, culture, art and science, drawing in this struggle the thinking of the broad masses of workers, peasants, army men and people's intelligentsia.

To raise at a higher level the struggle for the complete emancipation of woman. To carry always ahead the mass heroism of the laboring people who, inspired by the Party's slogan «One for all and all for one», have taken important ideological initiatives and actions for putting everywhere and on everything general interest above self interest.

4. — The jubilar year of the 25th anniversary of the liberation of the Fatherland and of the triumph of the people's revolution may help us to still more strengthen the unbreakable militant unity of our people in the Democratic Front around the Party Central Committee with Comrade Enver Hoxha at the head, unity which constitutes the main guarantee for the present and the happy future of socialist Albania.

5. — To carry out a great propaganda work during this year for further strengthening the militant friendship of the Albanian people with the great Chinese people and with all the revolutionary peoples and Marxist-Leninist forces throughout the world; to continually expose U.S.-led imperialism and modern revisionism, headed by the Soviet revisionist leadership.

6. — Within the framework of this glorious jubilee and under the slogan «The socialist Albania in its 25th anniversary», to organize great political, scientific, cultural, artistic, sportive and other activities and manifestations throughout the country. A central commission will be created, headed by

Member of the Political Bureau of the Central Committee of the Party of Labor of Albania and Vice-chairman of the Council of Ministers Comrade Haki Toska, to organize the celebration of this jubilee.

7. — The Central Committee of the Party of Labor and the Council of Ministers of the People's Republic of Albania call upon all the communists, all our marvelous people that, under the Party leadership headed by Comrade Enver Hoxha, 1969, the glorious 25th anniversary of the liberation of the Fatherland and of the triumph of the people's revolution, may be turned into a year of irresistible attack in all fields for promoting the complete construction of socialist society at faster rates and with optimism and high revolutionary vigilance in our country, to make our socialist homeland more powerful and prosperous, to speed up the triumph of our glorious Marxist-Leninist ideology all over the world.

THE CENTRAL COMMITTEE
OF THE PARTY OF LABOR OF ALBANIA
THE COUNCIL OF MINISTERS
OF THE PEOPLE'S REPUBLIC OF ALBANIA

Tirana, January 16, 1969.
