

CRUSH DOWN THE GENOCIDAL PLAN AGAINST THE PRISONERS OF WAR!

"The reactionaries dream of annihilating revolution by killing the masses. They think that the more are killed the weaker the revolution becomes. But against their subjective desire, facts show that the more people they kill, the closer is the end for the reactionaries. This is an ineluctable law."

Chairman Mao Tse-tung

To the Peruvian and International Proletariat, to the people of Peru and the people around the world.

We, as prisoners of war from this concentration camp of Canto Grande, salute with deep communist joy the vigorous, rising, and overwhelming development of our unbeatable People's War, which today is at the stage of Strategic Equilibrium. This is shaking the country more and more, preparing the strategic offensive to seize power nationwide. All this is led by the PCP under the grand direction of our Chairman Gonzalo, leader of the Party and the revolution. This is demonstrated by the hundreds of actions carried out all over the country and the conclusive Armed Strike on November 18-19 in Lima, which shook the Peruvian reaction and imperialism, especially Yankee.

The open genocidal dictatorship led by the sly and reptile-like Fujimori, as a wounded beast under orders from his master, yankee imperialism, and with cruel hate for the people, unleashes his countersubversive war, that has been developed as part of his so-called low intensity war. Within this is the arrest of our beloved and respected Chairman Gonzalo, whom he tries to kill, dreaming about finishing the revolution. We call the proletariat, the Peruvian people and people around the world to defend the health and life of the greatest Marxist-Leninist-Maoist who is living on the face of the earth.

His war is joined with the continuation of his plan of genocide against the prisoners of war, like the latest events in Cachique prison, where more than 40 prisoners were massacred, a similar situation to what happened in other concentration camps. In our case we denounce the cruel beatings meted out on the 20th and the following days of this month. Before the conclusive success of the Armed Strike, Fujimori, the prickly pear hooked on the end of the bayonets, human trash, vented his fury against the prisoners of war. Thus, "special groups" of the national police, a defeated force, "brave" in the face of disarmed prisoners, led by the genocidal Colonel Gabino Cajahuanca (Prison Governor), Captain Aliaga and others like him, came into pavilion 1-A, and under the pretext of a "relocation" (selection of those who they consider "ringleaders"), began to beat and torture us one by one, and as a consequence some of our comrades are seriously wounded. Also, they kept us completely isolated 24 hours a day in small cells of 2,5 x 1,5 m. (The cynic Fujimori lies. We did not come out to the yard, not even for half an hour a day as he claimed). In these cells live three people who have to satisfy all their needs, being at risk from infectious diseases. They give us deficient and terrible food which consists of a little sugary water and 4 breads, a soup badly prepared and each time in a smaller portion. All this gets worse due to the continuous theft of the food brought by our relatives on monthly visits, denying us the right to food, and as consequence we have today more than 40 sick persons with tuberculosis, who are denied proper medical attention. We also denounce the continuous inspections carried out by the genocidal security guards in order to steal and destroy our scarce possessions (food, clothes, medicines, handmade works, etc) - all this together with beatings and abuses.

All this is part of his policy of genocide against the people, meaning, to continue the genocide of prisoners of war in the

concentration camps like Canto Grande, Lurigancho, Chorrillos, Ica, Puno and others where they are shaping their systematic annihilation, and the Judicial Power and the Public Prosecutor are accomplices; the Fiscal Prosecutor Blanca Nelida Colan, Fujimori's loyal lackey, also gave her consent.

The reactionaries try vainly to harm our undefeated morale, they dream about drowning the revolution in blood, but against this subjective wish, the People's War is blazing victoriously, it is beacon of the world revolution - the more vile acts they do, the more the reactionaries dig their grave. The Party has forged us to defy death, this is the way that our Chairman Gonzalo has forged us. We have an uncompromising communist position. Nothing can stop us! Neither his life imprisonment nor his death penalty (that they have tried to apply since long ago). Nothing!

We expose those so called "special tribunals" of the hooded judges, a fascist monstrosity, which denies the right to defense as part of the continuous denial of the people's rights. We condemn with great class hatred the murder and harassment of the democratic lawyers, as well as the kidnappings, disappearances and murders of hundreds of people, entire families, masses of our people, committed by the genocidal Armed Forces - experts on defeats. We reaffirm that only the people judge and sentence the genocidal murderers! The sentence could take a long time, but finally it will come. No genocidal murderers can escape from the people's justice. All the genocidal murderers and their accomplices will be swept away by revolution.

We, as prisoners of war in this concentration camp, reaffirm our absolute and unconditional submission to our leader, Chairman Gonzalo; and declare our obligation to defend his health and life. We reaffirm to continue with the heroic resistance under these new conditions. We reaffirm our obligation of giving our life for Chairman Gonzalo, the Party, the Revolution and Communism. We follow the shining example of our always remembered Comrade Norah, the greatest heroine of the Party and the Revolution. We are completely convinced that we will seize power nationwide, that we will establish the People's Republic of Peru, a future base area and trench of combat for the World Proletarian Revolution. We will uninterruptedly continue the Socialist Revolution. We, together with the international proletariat and the people around the world, will continue developing the Proletarian Cultural Revolutions, all that are necessary to come to our final goal: golden and forever shining Communism.
