Dear comrades,

With profound sorrow, the Albanian people, our Party of Labour, its Central Committee and the government of the People's Republic of Albania learned the very sad news of the loss of our dear comrade, our illustrious teacher, the great Joseph Vissarionovich Stalin.

Today the Communist Party of the Soviet Union, the fraternal Soviet peoples, all communist and workers' parties, all progressive and peace-loving peoples of the world, as well as our people and Party, have lost the man dearest to them, their dear teacher, the comrade and faithful follower of the cause of the great Lenin, the leader who led with his far-sighted mind and steel-like hand on the

path of peace, socialism and communism.

The loss of our esteemed comrade and teacher is a heavy blow that has deeply saddened the heart of every Albanian communist, the hearts of our workers, peasants, intellectuals, women and youth, because the name of Comrade Stalin is associated with the liberation of the Albanian people from external and internal enemies, because the name of Comrade Stalin is associated with the construction of a new and happy life in our country.

In these very difficult moments, our Party and the entire Albanian people swear before the great Comrade Stalin to preserve and strengthen our friendship with and love for the Communist Party of the Soviet Union and the fraternal Soviet peoples even more. With the name and memory of Stalin in their hearts, the Albanian people, under the leadership of the Party of Labour, will march resolutely towards new victories on the path charted by our unforgettable teacher.

The Albanian people will close ranks around the Party of Labour, its Central Committee and the government of the People's Republic of Albania, they will strengthen their moral and political unity, increase their revolutionary vigilance and readiness to thwart any intrigues of the imperialist enemies and their servants against our freedom, independence, peace and future.

On behalf of the Party of Labour of Albania and its Central Committee, on behalf of the government of the People's Republic

# THE OATH OF THE ALBANIAN PEOPLE ON THE OCCASION OF THE DEATH OF J.V. STALIN\*

March 10, 1953

Dear fraternal peoples of the Soviet Union,

We, the Albanian people, workers, peasants and intellectuals, men and women, young men and women, deeply feeling the great sorrow caused by the loss of our dear J.V. Stalin, feel ourselves near you more than ever and, embracing you with great love, Soviet brothers and sisters, we swear today before Comrade Stalin that we will remain faithful to the great cause of Lenin and Stalin.

You and we, as well as all the peoples of the world, are today engulfed by a great tragedy: our beloved leader, our great teacher, J.V. Stalin, closed his eyes forever. The mind of the greatest and brightest genius of our times, the illustrious architect of socialism and communism, the creator and delineator of the Communist Party of the Soviet Union and the Soviet state, which are the greatest victory of humanity, has ceased to think. The heart of the greatest friend and defender of the common people of the world has stopped

beating, that great, generous and brave heart, which beat and fought to the end for the peace, freedom and happiness of the peoples.

Our dear Stalin, the faithful disciple and brilliant follower of the immortal work of great Lenin, saved humanity from the most severe slavery of the nazi beasts and Japanese militarists and led the war fought by the peoples of the world to be saved from certain catastrophe.

In these difficult moments, when Comrade Stalin has left us, we express our boundless gratitude to our dear teacher, our great liberator, whose name is associated with all our victories: the liberation of the Homeland, the establishment of the system of people's democracy, the building of the foundations of socialism.

Comrade Stalin taught us how to fight for the liberation of our country from foreign oppressors, the barbaric imperialists. With Comrade Stalin's name on our lips and with the book *History of the Communist Party of the Soviet Union (Bolsheviks)* in our hands, our brave partisans fought like dragons in battle and triumphed over the Italian and German fascists and traitors to the country. In the toughest days of the war, the great Stalin was with us and he invigorated our hearts, he led us to victory. In days of joy and sorrow, we felt the paternal care of the great Comrade Stalin at every moment. Our people have shed so much blood fighting over the centuries, this country of ours has been desolated many times, but the great hope for the fruition of its

efforts arose only when the Great October Socialist Revolution triumphed and its dreams became a reality, when the Albanian people united with you, the fraternal peoples of the Soviet Union, when it joined up its war for liberation with the great anti-fascist war of the Soviet peoples and their glorious army.

We bow with sorrow and deep respect before the unforgettable memory of the great Stalin. For us, Stalin has not died, he can never die. He lives and will live for centuries.

Comrade Stalin has taught us to be strong, courageous and face all situations no matter how difficult they may be, overcome them and always move forward.

We swear, before Comrade Stalin, that we will harden our hearts and attack vigorously to achieve new victories, that we will be resolute on the path he led us, that we will follow with the greatest loyalty his salvific teachings, and with pride we will pave the way for new victories, led by the banner of Marx, Engels, Lenin and Stalin.

We swear, before Comrade Stalin, that we will strengthen and invigorate our sincere and deep love for the fraternal peoples of the Soviet Union.

We swear, before Comrade Stalin, that we will strengthen the heroic Party of Labour of Albania, which led us to the glorious victory of the National Liberation War and successfully guides us on the path of socialism. We will preserve the unity of the Party as the apple of our eye and keep its ranks clean, striking with the utmost severity any external or internal

enemy who dares to touch its unity. We will strengthen the alliance of the working class with the peasantry and unite around the Party of Labour of Albania more strongly than ever, surrounding it with boundless love, because it represents our present life and the future generations of our country, because it boldly builds and defends our new life. We will follow the teachings of our Party of Labour and its Central Committee with the greatest loyalty. We, rallying around our Party and government, united in the Democratic Front of Albania, led by our Party of Labour, will fight to defend peace, freedom, independence and will put all our efforts towards successfully building socialism in our country.

We swear, before Comrade Stalin, that we will strengthen the people's state power of workers and peasants more and more. We will mercilessly fight against the external and internal enemies who dare to touch the People's Republic of Albania. We will defend and expand the great achievements made in the social, economic and cultural fields, thanks to the assistance of the Soviet peoples and the paternal care of Comrade Stalin. We will protect and expand our magnificent factories and plants, we will further develop our industry and agriculture, education, and culture of the people, as well as vigilantly guard our Homeland.

We swear, before Comrade Stalin, that we will strengthen our heroic People's Army and State Security, sharpening our revolutionary vigilance to thwart all the plans of those who

dream of harming our socialist Homeland. We will vigilantly guard and protect the sacred borders and achievements of our People's Republic, for which the best sons of our people heroically fell. We will preserve our Homeland, which is a beacon of peace, an impregnable and inviolable granite rock where all the enemies of socialism and peace who dare to touch it will surely smash their heads.

We swear, before Comrade Stalin, that we will always hold high the banner of proletarian internationalism and strengthen our friendship with the peoples of the countries of people's democracy and with all peoples fighting for peace, democracy and socialism.

We swear, before Comrade Stalin, that with all our might we will fight to defend peace in the world against the warmongering Anglo-American imperialists and their servants. The words of Comrade Stalin,

*“Peace will be preserved and strengthened if the peoples take the issue of peace into their own hands and defend it to the end,”\**

will be our banner in this glorious battle.

The entire Albanian people, as one, solemnly swear this today before the great Comrade Stalin.

# INCREASE THE VIGILANCE OF THE FREE PEOPLES\*

March 25, 1953

A great sorrow overwhelmed the Albanian people when they learned that the father and teacher of all progressive humanity, Comrade Stalin, closed his eyes forever. In these difficult days, the Albanian people felt closely connected to the fraternal Soviet peoples more than ever.

Comrade Stalin is immortal; his deeds immortalize him, overthrowing the old and outdated ideas. His ideas, like a beacon, illuminate the path of a bright future for the simple people of the world.

For the small Albanian people, who for centuries endured suffering and deprivation and emerged from the darkness into light thanks to the legendary victory of the Soviet peoples, the name of Stalin is especially dear. Our people will always remember this dear name with respect and boundless gratitude, never forgetting that the entire life of Albania, its freedom and independence, and the construction of socialism in our country are indissolubly linked to the immortal teachings and activities of the great Stalin.

The brilliant successor of Lenin's work, Comrade Stalin was the leader of all progressive humanity, an excellent teacher and educator of the communists and patriots of all

countries fighting for peace, democracy and socialism. He was the most beloved man of the simple and honest people of the world. The great heart of Comrade Stalin beat all his life, until his last second, for the good of humanity. His brilliant mind worked all his life, until his last second, for the happiness and well-being of the peoples of the world.

Humanity owes its greatest victories to the teachings and practical activities of Lenin and Stalin: the birth of the glorious Communist Party of the Soviet Union, the creation of the first socialist state in the world, the birth of the fraternal family of free peoples united around the USSR in the powerful camp of democracy and socialism. These victories are the life-giving and indomitable foundations of the progress of all humanity.

The peoples of the world will forever be grateful to the Soviet Union, which, led by the great Stalin, saved humanity from the threat of fascist slavery. Armed with the uplifting ideas of Marxism-Leninism, the communist and workers' parties and all progressive humanity will continue to fight with even greater energy for the bright future of the peoples.

The deeds of Comrade Stalin, his ideas, are and will always be for us a life-giving force; they will always illuminate our path. The glorious Communist Party of the Soviet Union is confidently leading the Soviet peoples on the road to communism. The glorious homeland of socialism and communism is the steadfast and invincible bastion of freedom and security of peoples. The excellent cadres of the

great Communist Party, the close disciples and loyal comrades-in-arms of Stalin, firmly steer the helm of the great socialist state.

The workers of the countries of people's democracy who, under the leadership of their communist and workers' parties, are successfully building socialism — and bravely defending their great achievements achieved thanks to the victories of the Soviet Army, the great assistance of the Soviet Union and personally of Comrade Stalin — have unwavering faith in their future. They are uniting even more strongly around the USSR, and there is no force in the world that can hinder their steadfast march forward.

The whole world knows the unparalleled sufferings of the Albanian people in the past. Everyone knows the diabolical intrigues of the Turkish, Italian, Greek, Serbian, American, British imperialists and their servants — the Albanian feudal lords — against our Homeland. Everyone knows the sufferings of the Albanian people under the yoke of the feudal lord Ahmet Zogu, this old agent of the enemies of the Albanian people. Everyone also knows the horrors of the barbaric occupation of our country by the Italo-German fascists.

But how could our small people survive complete annihilation and withstand these strong waves that crashed one after the other on its wounded chest? The small but heroic Albanian people defeated their fierce and powerful enemies, waging a brave, protracted war against the hated oppressors and enslavers. They never bowed before tyrants; without

relinquishing their weapons, they heroically defended their lives, land and honour. For our people, the dawn rose with the victory of the Great October Socialist Revolution, which took place under the leadership of Lenin and Stalin.

The hopes and aspirations of the workers of Albania were realized thanks to the unmatched heroism of the Soviet Army during the period of World War II and thanks to the heroism of our people, who fought under the leadership of the Communist Party of Albania, faithful to the end to the doctrines of Lenin and Stalin.

The Albanian people owe their successes to the Soviet Union and the great Stalin because through them, they gained freedom, independence, expelled the Italo-German invaders from their Homeland, crushed the internal enemies — the feudal lords — and established the people's democratic order.

Thanks to the assistance of the Soviet Union and Comrade Stalin, our people took their fate into their own hands, gained freedom and independence, the opportunity for their development and the construction of socialism.

The numerous modern industrial complexes and factories, the magnificent hydro-electric power stations built in Albania, the large number of tractors working the arable lands of our country, thousands of different schools where the children of the people learn, testify for the unparalleled assistance that the Soviet Union has given to our country.

For this assistance, our heroic army, which liberated the country, and vigilantly guards the borders of the Republic and the great achievements of our people, an army forged in the fire of war, an army that is trained and educated in the spirit of Stalin's military art and follows the path of the glorious Soviet army, testifies.

Finally, our heroic Party of Labour, which was created and tempered in the fire of war based on the doctrines of Lenin and Stalin, a Party that faithfully follows the great path of its mother, the Communist Party of the Soviet Union, a Party born of the Albanian people, a Party that has led our people to glorious military victories and is safely leading them on the path of socialism, testifies.

These great and numerous victories are being expanded and guarded more and more by our Party and people. Our people's successes unsettle the Anglo-American imperialists, our most bitter enemies. Our flourishing Homeland and people, who steadfastly march forward and successfully build socialism, are thorns in the eyes of the enemies. They are using all means to suppress and enslave the Albanian people again, but all their efforts have failed and will inevitably fail, because the Albanian people are not alone, because they have faithful friends in the Soviet Union and the countries of people's democracy who support and defend them with all their might.

People's democratic Albania has encountered many traps and dangers on its path, but every time, thanks to the disinterested assist-

ance of the Soviet Union, thanks to the vigilance of the Party and our people, the diabolical plans of the imperialist warmongers and their servants have been exposed and thwarted.

Comrade Stalin has constantly taught us to increase our vigilance against internal and external enemies. Our Party and people have applied this lesson of Comrade Stalin and will continue to do so in the future.

Our Homeland resembles a small island surrounded by hostile forces, which constantly provoke our borders, continuously send spies, saboteurs and diversions from all sides to disrupt peace in our country, to hinder peaceful construction, to commit crimes and to prepare the ground for aggression against the Albanian people.

The fiercest enemies of our people, the Anglo-American imperialists and their agents in the Balkans, the Titoites of Belgrade, the Greek monarcho-fascists and the Italian neo-fascists are devising plans and making military agreements to attack Albania and divide it.

But the enemies must know that under no circumstances will they catch us off guard, that if they dare to attack us, they will find a united people around their Party and government. The enemies must know that the borders of Albania are not open doors anymore, that now these borders are made of steel, where all those who dare to attack our country will smash their heads.

The lessons of Comrade Stalin on the ne-

cessity of perpetual vigilance against the intrigues of enemies have entered the flesh and blood of our heroic army, which is always ready to give a deserved response to those who seek to harm the interests of the Homeland and our people.

To be vigilant — this lesson of Comrade Stalin the Albanian people apply rigorously in every place and under all circumstances: in guarding the borders, in strengthening their own army, in strengthening their beloved Party and in protecting their peaceful work and successes.

Our people will always be vigilant because the victories achieved so far have cost blood, privations and suffering, because for these victories, its best sons gave their lives for them, and their grandparents and great-grandparents fought and shed their blood for them.

Comrade Stalin taught us to preserve, like the apple of our eye, the unity of the Party and the purity of its ranks, to deliver merciless blows to any external and internal enemies of the Party who dare to disrupt its unity and strive to deviate it from the correct path.

Our Party has always adhered to these teachings of Comrade Stalin and will continue to adhere to them in the future. The blows of the Party against its overt and covert enemies have been and will always be merciless, those who dare to touch our Party will be unmasked and all renegades will be ruthlessly crushed. The members of our Party are fully aware that vigilance in defending the Party and the victories of the people is one of their fundamen-

tal duties.

The Albanian people, the Party of Labour of Albania, the whole country, large and small, swear to Comrade Stalin that they will strengthen and deepen their sincere love for the fraternal peoples of the Soviet Union, because the inseparable friendship with the great homeland of Lenin and Stalin is the decisive factor for all our successes, the guarantee of the freedom and independence of our people.

Although our country is surrounded by hostile forces, we are not afraid of their threats because we have a great and faithful friend — the Soviet Union. Our martyrs who fell on the battlefield left us a legacy to preserve our love for the fraternal peoples of the Soviet Union. We will keep their legacy in our hearts and fight to fulfil it with all our strength.

The Soviet Union, the glorious Communist Party of the Soviet Union with its Central Committee, seasoned in battles, will always be a great and unerring source of light on the path to our happy future.

Thus, the Albanian people swore to Comrade Stalin. And there is no force in the world that can force the Albanian people to break this pledge made to their friend. The faithfulness and inseparable friendship of Albanian people and the Party of Labour of Albania with the USSR and the glorious Communist Party of the Soviet Union will live for centuries.
